

NGUYEN HOANG PHUC

Back-end PHP Laravel

☎ 077-7575-100 | ✉ phucnguyen200123@gmail.com | 🌐 github.com/0132E282 | 📍 Q12.TP HCM

SUMMARY

I have one year of experience with PHP, JavaScript, and another year working with ReactJS and Laravel. I'm hardworking, a team player, and eager to learn new technologies. My goal is to use my skills to create user-friendly, engaging websites that attract users and improve performance.

EDUCATION

FPT college

2022 – 2024

My major is web design back-end (PHP Laravel)

EXPERIENCE

Gia Bao House construction company

August 2024 – now

Intern content SEO

- Focus on writing SEO-friendly content to boost search rankings on Google.
- Optimize both on-page and off-page SEO.

PROJECTS

Fashion Shop | *Bootstrap, PHP*

July 2023 - August 2023

Project 1 (School Practice) Enhance teamwork, proficient in programming language PHP.

GitHub: <https://github.com/0132E282/SUNFLOWER.git>

Position in project: Back-end

Achievements: Achieved a score of 7.0 during the project defense, enhancing fundamental PHP skills.

Responsibility in project.

- * **Product Management:** Implement CRUD operations, define product attributes, and manage customizations.
- * **Invoice Management:** Update invoice statuses, adjust product quantities, add new products, and apply order filters.
- * **Cart Page:** Develop CRUD functionality for cart items.
- * **Payment Integration:** Administer user roles, update details, and manage account statuses.
- * **User Management:** Administer user roles, update details, and manage account statuses

Fashion shop (update 6/2024) | *Laravel, PHP, JQuery, Bootstrap*

May 2023 - August 2023

Built an e-commerce website using Laravel, gaining hands-on experience with the framework.

GitHub: <https://github.com/0132E282/e-commerce.git>

Position in project: Back-end

Achievements: Mastered Laravel essentials (Eloquent ORM, Blade, authentication), developed product and invoice management with filtering/soft deletion, integrated Momo/VNPAY for payments, and implemented daily back-ups.

Responsibility in project.

- * **Product Management:** Created product listing with filtering by quantity and date, sorting, and soft delete/restore functionality.
- * **Invoice Management:** Built features to generate invoices, confirm/edit orders, and manage product additions. Included filtering, sorting, and notification queues.
- * **Category Management:** Managed product categories with hierarchical structure and soft delete/restore.
- * **Brand Management:** Managed brand listings with filtering and sorting options.
- * **Menu Management:** Developed menus and submenus with hierarchical links to categories and pages.
- * **User Management:** Handled user accounts with CRUD, blocking, filtering by role, and role assignment.
- * **Payment Integration:** Integrated payment gateways such as Momo and VNPAY for smooth online transactions.
